## SHIPPING ANIMALS OUT OF STATE ?

The following is a reprint from the February 1994 issue of "U.S. Beltie News", the official publication of the Belted Galloway Society, and is well worth knowing about.

If you are shipping animals out of state, you may find the computerized Voice Response Service (VRS) useful. Sponsored by the Centers for Epidemiology and Animal Health, the 24 hour service permits you to obtain information about state regulations by dialing (800) 545-USDA (8732) on a touch tone phone.

Press 2 (state regulations), then the code for the state to which you are shipping (see below), then press 1 (cattle) to receive a rundown on the state's bovine health requirements along with the phone number for obtaining a permit. Here's a list of the states' access codes:

AL-25	HI-44	MA-62	NM-66	SD-73
AK-25	ID-43	MI-64	NY-69	TN-86
AZ-21	IL-45	MN-66	NC-62	TX-89
AR-27	IN-46	MS-67	ND-63	UT-88
CA-22	IA-42	MO-66	OH-64	VT-88
CO-26	KS-57	MT-68	OK-65	VA-82
CT-28	KY-59	NE-63	OR-67	WA-92
DE-33	LA-52	NV-68	PA-72	WV-98
FL-35	ME-63	NH-64	RI-74	WI-94
GA-42	MD-63	NJ-65	SC-72	WY-99

I've tried it and it works. Actually, this service deals with other categories as well - one being Emergency Notices that may be in effect at any time in a particular locality.

John Hays  
Director, Region IX

---

### EDITOR'S NOTE

The deadline for the next Bulletin is July 1, 1994.

## North American Livestock Census Is Now Available.

The American Livestock Breeds Conservancy announces the publication of Taking Stock: The North American Livestock Census. The book presents an inventory of North American breeds and describes the status of livestock genetic diversity. Taking Stock includes discussion of asses, cattle, goats, horses, sheep and swine, with registration numbers for all breeds within the species, graphs to illustrate genetic status, and breed association addresses. Appendices describe the past extinctions of American breeds and present data on feral livestock populations.

Taking Stock identifies seventy seven breeds as conservation priorities. Nearly thirty of these conservation breeds are globally unique, found only in North America. They include American Mammoth Jackstock, Milking Devon cattle, Fainting Goats, Spanish Mustangs, Navajo-Churro sheep and Ossabaw Island swine. Also of great importance are those globally endangered "international" breeds for which the North American population is a significant portion, such as Red Poll cattle, Cotswold sheep, and Tamworth swine.

Taking Stock: The North American Livestock Census is available from the American Livestock Breeds Conservancy for \$14.95 plus \$2 for shipping. Send check or money order to ALBC, PO Box 477, Pittsboro, NC 27312, or call 919-542-5704 with Master Card/Visa orders

For more information, please contact Don Bixby or Carolyn Christman, ALBC, 919-542-5704. A photograph of the book cover is available upon request.

**NOTICE TO ADVERTISERS:**

**SEMEN FOR SALE**

Please note - All advertising pertaining to the sale of Dexter semen in the Bulletin is required to state the height of the bull from the shoulder to the ground and the age at which the height was recorded.

---

HIYU TYEE #3365, black, 45" and 1000 lb. at 5 yrs. Non dwarf. Point of shoulder to tailhead-60". Outstanding well-muscled bull with excellent hindquarters, straight back, good body depth, short broad head and friendly disposition. Calves from Tyee are uniformly better than their dams. Same body depth and 6" longer than Saturn of Knotting.

Semen available from Carol Davidson, Bright Meadows, R.R.1, Ladysmith, B.C., Canada, VOR 2E0. Semen stored at All West/Select Sires, Burlington, WA, so no brokers fees.

\$20 U.S./straw, plus \$50 U.S. flat fee for shipping and handling.

BEDFORD ROMARC RAMBLER #5449 (Cdn 543) - black, 42" and 814 lbs. at 22 months. Non-dwarf.

If you want good looking, totally unrelated bloodlines, and an animal to improve feet, this is the bull for you. Mr. Kellogg imported his own Dexters from Lady Loder's herd in 1949. Other than two bulls brought into the herd from Clove Brook, this has been a closed herd since the early 50's. Rambler is from the first cow sold out of the herd since 1962. Cows from this herd are very fine boned and good tempered.

Semen available from Carol Davidson, Bright Meadows, R.R.1, Ladysmith, B.C., Canada VOR 2E0. Semen stored at All West/Select Sires, Burlington, WA, so no broker's fees.

CANADIAN PURCHASERS NOTE: In Canada, semen sold direct through Independent Breeders, Box 3608, Ardrie, Alta, T4B 2B8.

\$20 U.S./straw plus \$50 U.S. flat fee for shipping and handling; or \$25 Cdn/straw, payable to Independent Breeders, plus s & h (billed direct to your AI unit).

---

WEE GAELIC MR. O'TOOLE #5741 - dun, 45" and 1020 lb. at 3 years. Non-dwarf.

By Hiyu Tyee (3365) out of Hiyu Thistledown (3836). This bull is well muscled, long and lean. Currently owned by a veterinarian who is very pleased with him. Has sired lots of really nice calves.

Semen available from Universal Genetics, Box 910, Cardston, Alta, TOK OKO. Semen stored at Universal, Great Falls, MT, so no broker's fees. Canadian orders shipped from Cardston. \$20 U.S./straw, plus s & h, billed direct to your AI unit; or \$25 Cdn/straw plus s & h, billed direct to your AI unit.

RIVERHILL SATURN'S GALAXY #5255EX  
(Cdn 489) - black, 43" and 900 lbs.  
at 26 months. Non-dwarf.

Simply the best. This bull should  
mature at 45-45½" and in good  
condition weigh 1100 lbs. Excellent  
muscling, depth, length, docile  
temperment, better udders.

Semen available from Independent  
Breeders, Box 3608, Ardrie, Alta,  
Canada T4B 2B8. Semen stored at Nokota  
Genetics, ND, so no broker's fees.  
Canadian orders shipped from Ardrie.

\$20 U.S./straw plus s & h, billed  
direct to your AI unit; or \$25  
Cdn/straw plus s & h, billed direct  
to your AI unit.

PURCHASERS PLEASE NOTE: Galaxy has  
no cross-breeding anywhere in his  
background. The EX suffix comes from  
his purebred grand dam, who was  
registered late and so was penalized  
according to the English rules of  
the day.

**DEXTER HEIFER GOES TO SCHOOL**

My name is Karla Moxley, and I am in my first year with 4-H. I chose to go into the Dairy Club with my Dexter heifer because I wouldn't have to "poof" her tail. My teacher set time aside for other kids to bring their pets to school, so when I asked to bring my heifer, she okayed Maddie coming to class for the afternoon. This was Maddie's first trip away from home, and she acted the perfect lady. The other kids were thrilled to have a real calf in class with them, and were even understanding about her not being housebroken. Many of them had never even seen a calf before, and were nervous to start with. By the end of the afternoon, I had several new recruits for 4-H. My classmates agreed that Dexters were just the right size, and that if they are all as smart and friendly as Maddie, they must be a very special breed indeed.

**DEXTERS - MY SON'S EXPERIENCES**

This story is taken from a letter from Rhonda Lee, Anacoco, LA. At the age of eight, Daniel decided to enter the world of cattle raising. He requested a calf to bottle feed for his birthday. He was given two, two bottles and a manure fork. I thought he would get tired of this task, but he raised and sold calves for two years, saving his money to purchase a Registered Dexter.

He had read about Dexters somewhere, and loved their size. He had saved \$500 by raising and selling his calves, so we began to look for a Dexter to purchase. Since there were none in Louisiana, we called a nice lady in Texas. Soon, Woody Creek Ashley came into our lives. She had not been worked with, so I watched my son work with her to gain her trust and halter break her. Daniel was told that he shouldn't enter her in 4-H competition because of her size, but he did anyway. We entered Leesville Fair, and then went on to the Louisiana State Fair. He placed 4th at state, in A.O.B., the last place out of 4. After showing, he entered into his first showmanship competition and placed fifth out of over thirty. I was a proud parent to say the least. We then entered in a "prettiest cow" contest. Daniel won dressed as a poor man and Ashley dressed in garbage can makeup. We also made a sign that said "I used to weigh over 2000 lbs before Hillary took over" that Daniel hung from a manure fork. With his empty pockets out, mismatched boots and hair all messed up, he won.

Our thanks to the Association for the pamphlets that my son handed out to every person who stopped by to see the smallest cow in the barn. He told everyone about Dexters. Also, thank you for the assistance in locating a breeder. I am proud of my son's decision to buy a Dexter instead of a heavy beef breed.
