

## Focus on Youth

# North Carolina Junior Beef Round-Up Dexter Show

***The first North Carolina Junior Beef Round-Up Dexter Show (NCJBRU) was a tremendous success!***

The show, which began in 1983, was designed to be a comprehensive evaluation of 4-Hers' knowledge of the cattle industry. During the weekend event, contestants have the opportunity to showcase their individual skills as well as their ability to work in a team setting.

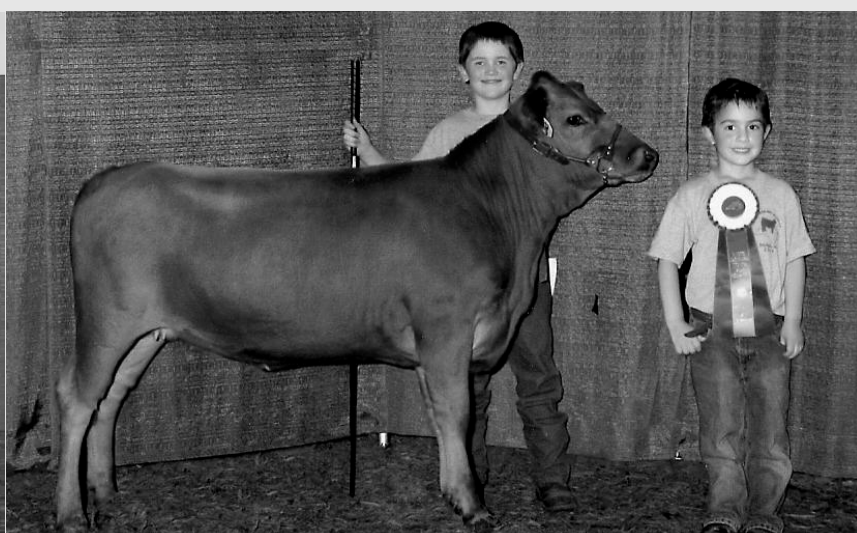

In the showmanship contest,

they get to show off their individual ability to handle their animals. There is also a Skill-a-Thon, which allows the participants a chance to showcase their knowledge of the beef industry. Some other events include a heifer show, a photography contest and a poster contest.

The NCJBRU is planned and run by a group of juniors from throughout North Carolina, their breed advisers, the Purebred Breeders Council, the

North Carolina Cattlemen's Association and the North Carolina State University 4-H and Youth Livestock Department. It is open to juniors throughout the United States, and membership in 4-H or FFA is not required; however, both programs are such assets to youth that they are strongly encouraged.

This year for the first time, a Dexter heifer show was added to the already-packed NCJBRU lineup, with Lindsey and

Above, left: Caitlin Graham and Darlin. Above, right: For the first time, the NCJBRU had a Pee Wee Showmanship Class for children 5 and under. Shown here is Samuel Lewis, 9, of Bunn, N.C., who placed third in his breed class, holding his heifer Gracie, and Pee Wee Showman Matthew Graham, 5, of Louisburg, N.C. Right: Lauren Edwards and Charity.

Lauren Edwards as the junior Dexter breed representatives and Sally Coad as the Dexter breed adult adviser. Not surprisingly, all of the juniors and cattle did great.

There were numerous compliments from officials and other breed exhibitors on how well-behaved and well-tempered the Dexters were in comparison to other breeds.

This year, thanks to several sponsors, we were able to offer a Dexter jackpot of \$500 to the overall Supreme Grand Champion Female in addition to all of the regular NCJBRU prizes and premiums – also made possible through private sponsorships raised by the breed advisers, representatives and exhibitors.

### Top Winners

*Junior Heifers (1/08 and younger):* Jackson Neal, 7, and Snickers

*Fall Heifers (9/07-12/07):* Amy Smith, 14, and Holly

*Summer Heifers (5/07-8/07):* Lauren Edwards, 11, and Charity

*Weanling Heifer Champion:* Lauren Edwards, 11, and Charity

*Reserve Weanling Heifer Champion:* Jackson Lewis, 13, and Dolly

*Junior Yearling Heifers (11/06-*

*4/07):* Samuel Lewis, 9, and Jigs

*Senior Yearling Heifers (5/06-10/06):* Caitlyn Graham, 13, and Darlin

*Yearling Heifer Champion:* Caitlyn Graham, 13, and Darlin  
*Reserve Yearling Heifer Champion:* Kimberly Womble, 12, and Maui

*Supreme Grand Champion Dexter Female:* Caitlyn Graham, 13, and Darlin

*Supreme Reserve Grand Champion Dexter Female:* Lauren Edwards, 11, and Charity

# Get Youth Involved in Five Easy Steps

submitted by Sally Coad

**Step 1:** Invite youth and families to your farm and introduce yourself and your passion for Dexter cattle.

**Step 2:** Give them a closer look and a better understanding of all the special and a broad understanding of the history of Dexters and the importance of raising such a special breed.

**Step 3:** Give them hands-on experience, instruction and confidence to go on to the next level and to share their enthusiasm with other youth.

**Step 4 (above):** Their love and commitment to Dexters will be a natural next step.

**Step 5 (left):** Before you know it, you will have a team of dedicated, responsible youth ready and willing to spread the news on how great Dexter cattle are in and out of the show ring!

## DNA Testing for Dexter Cattle

The following tests are available on a voluntary basis:

- **Chondrodysplasia (for carrier identification) - \$35**
- **DNA genotyping (for identification record for A.I. bulls; parentage identification) - \$35**
- **Red factor (for registration/carrier identification) - \$35**
- **Dun factor (for carrier identification) - \$35**
- **Color profile—red and dun—(for carrier identification) - \$60**

**If chondrodysplasia test is done in conjunction with dun OR red factor, the factor testing will be \$25 per test if included on the same sample that is run for chondrodysplasia. Please include extra hairs if more than one test is to be run on that sample (50-60 hairs).**

All test results are sent in certified duplicates to the owner/tester ONLY. If you wish to send chondrodysplasia results to be included on the animal's pedigree, send one of the certified result certificates to the ADCA registrar.

In order to register a Dexter as RED, it must be tested (DNA-verified) as red unless it is the offspring of a registered red sire and a registered red dam OR at least one parent has been tested as a non-carrier of dun.

The ADCA requires that the DNA genotype of all bulls used for out-of-herd A.I. be on file in the registry office before calves sired by those bulls can be registered. *(While any A.I. bull whose blood type was on file in the registry office prior to Jan. 1, 2003, is exempt from the DNA genotyping requirement, the person who sells semen from that bull is encouraged to request DNA genotyping for the sake of future reference or parentage questions.)*

Please contact Sandi Thomas or Pam Malcuit with any questions on these procedures.

**Forms are available on [www.region7adca.com/dnatestinginfo.htm](http://www.region7adca.com/dnatestinginfo.htm).**

**Please remember to include:**

- **The sample in its own envelope, which includes all pertinent information.**
- **The neatly completed form. *(If animal is not yet registered, you may put "pending" in that space. The animal MUST have a permanent ID such as a tattoo, however, and this information must be included on the application.)***
- **Your check made out to the ADCA.**
- **A stamped, self-addressed envelope; there will be two pages of results for each test submitted, so figure your postage and envelope size accordingly.**

*Mail to:  
Pam Malcuit, ADCA Liaison, 17087 Dixie Farms Lane, Iola, TX 77861.*

Classified advertising is limited to Dexters or Dexter semen exclusively and is subject to approval by the ADCA. Prices for animals will not be published.

### **Sales Requirements for Semen**

Advertising pertaining to the sale of Dexter semen in ADCA publications requires the statement of the shoulder height or the hip height of the bull (please specify) and the age at which the height was recorded.

The ADCA also requires that the DNA genotype of any bull being used for out-of-herd A.I. be on file in its registry office before calves from those matings can be registered.

The number of bulls to be tested must be specified in the request.

To obtain an application for DNA genotyping for parentage verification for Dexter bulls, contact:

**Pam Malcuit**  
**17087 Dixie Farms Lane**  
**Iola, TX 77861**  
**(936) 394-2606**
