President's Welcome

Welcome to the 2026 American Dexter Cattle Association Expo!

On behalf of the Regional Directors and the American Dexter Cattle Association, I am delighted to welcome Dexter enthusiasts from across the country to Wooster, Ohio, for this year's Expo. Whether this is your first Expo or one of many, we are grateful that you have chosen to spend the weekend with us celebrating all things Dexter.

Before we begin, I would like to express our sincere appreciation to Santiago Lizarraga and the Expo Committee for hosting this year's Expo. Events like this require countless hours of planning, coordination, and hard work. We are grateful for their dedication and commitment to making this gathering possible and for creating an outstanding experience for Dexter breeders from across the nation.

One of the greatest strengths of our association is the people who make it special. Throughout the weekend, I encourage you to take advantage of every opportunity to meet fellow breeders, exchange ideas, and learn from one another. There is simply no substitute for the connections that are made through conversations in the expo center, around the show ring, and during our educational sessions.

We are especially excited to welcome back the ADCA Dexter Auction, returning for the first time in many years. Combined with a full schedule of educational classes and demonstrations, this year's Expo offers something valuable for every breeder, whether you are just getting started or have spent decades refining your breeding program.

I also encourage you to take time to visit with your regional representatives, regional directors, and other association leaders. We value the opportunity to put names with faces, learn more about you, your family, and your operation, and hear your ideas for the future of our association.

Thank you for being part of the American Dexter Cattle Association and for helping make our Dexter community so strong. We are thrilled to have you here and look forward to an outstanding weekend of learning, fellowship, and celebrating the remarkable Dexter breed.

Welcome to the 2026 ADCA Expo, we're glad you're here!

Sincerely,

David Cluff
President
American Dexter Cattle Association

AGENDA 2026

KEYNOTE SPEAKERS

Shawn and Beth Dougherty

One-Cow Revolution

Achieving Food Independence with a Grass-Fed Family Cow

Essential experience-based advice and instructions from the authors of *The Independent Farmstead* for raising a grassfed milk cow as the heart of a successful low-input, low-cost homestead.

For more than three decades, Shawn and Beth Dougherty have honed their frugal methods for managing a small-scale farmstead on marginal land. In *One-Cow Revolution*, they share their wisdom and affection for the blessing that is the human-dairy cow partnership, addressing key questions with clear answers for those who have

just moved back to the land (or are still planning and dreaming). The Dougherty's begin at the

beginning, advising readers on how to find a reliable dairy cow, move her to the homestead, and settle her in. They take readers on the round of daily chores, including managing their cow's grazing patterns and monitoring pasture health, milking a cow, and handling the milk. They explain how a solar-powered cow becomes the heart of a diversified farmstead, providing food for calves, pigs, and other livestock; milk and meat for the family; and manure for high-quality compost to build healthy garden soil. The book's exemplary how-to content is framed by an introduction and conclusion that describes their life philosophy as "cow people" and the many benefits that manifest in communities where small, food-independent farmsteads thrive as models of sustainable human land-use.

Facility Tour

Meet the Youth Show Judge

Matthew Koverman

Matthew Koverman is an agricultural educator from Minford, Ohio. He is a former member of The Ohio State University Livestock Judging Team and the American Junior Simmental Board of Trustees where he was named the 2024 Herdsman of the year. He has judged several county fairs and jackpot shows across the region. He also raises and sells Simmental cattle with an emphasis on both show ring success and production performance.

Meet the Open Show Judge

Mackenzie Koverman

Mackenzie Koverman is a 2025 graduate of The Ohio State University, where she earned her Bachelor's degree in Agricultural Communications and was a member of the 2024 Livestock Judging Team. She currently works as a Customer Service and Shipping Coordinator at Thompson Show Feed in Wilmington, Ohio. Outside of her professional role, Mackenzie works alongside her family on their cow/calf and seedstock operation in southern Ohio. Her background spans all species, and she has had the opportunity to evaluate and work with livestock at multiple levels of competition.

YOUTH

Showmanship Clinic Instructor

Dawson Osborn

Dawson Osborn graduated from The Ohio State University in 2023 with a Bachelor's degree in Political Science. He was a member of the 2023 Ohio State Livestock Judging Team and has judged shows at the county and state level in Ohio, Indiana, and Kentucky. Dawson is currently a Legislative Aide at the Ohio House of Representatives and manages Osborn Show Cattle alongside his dad and two brothers in Lynchburg, Ohio.

AUCTION - Dexters for Sale

Saturday, June 27th

Lucky Dog Rye ADCA # 056719

Beautiful 2-Year-Old Polled Chocolate Dun Heifer

Rye is a striking chocolate dun heifer with excellent conformation and a very sweet, friendly personality.

She is easy to handle, leads exceptionally well, and has been successfully shown multiple times.

Sired by Tinney's Winston and out of Maple Hills Mama Mia, Rye has tremendous potential as a future milk cow. Her dam is known for incredible udder structure, longevity, and strong milk production.

Rye was pasture bred on May 24th to Lucky Dog Irish Whiskey (available for viewing at the show).

Rye is a gentle, people-loving girl who would make a wonderful addition to any herd – whether for showing, breeding, or family milk production.

Here's your opportunity to own a daughter of Ballard Family Titan, the 2024 National Expo Grand Champion Bull!

Lisa Marie is a very deep-flanked, well-balanced heifer with excellent conformation. She is expected to mature at approximately 42 inches tall. She is hetero-polled and A1A2, making her an outstanding prospect for both show and breeding programs.

Out of our smallest cow, Sheen's Sequin, who possesses a beautiful udder, Lisa Marie combines quality genetics with a smaller frame size. She is easy to handle and will be exhibited in the Open Show Spring Yearling Heifers class.

If you are looking to add quality, proven genetics to build or upgrade your herd, Lisa Marie is a heifer you do not want to miss.

Ballard Family Lisa Marie ADCA # 057952

Exceptional Spring Yearling Heifer

Daughter of 2024 National Expo Grand Champion Bull

AUCTION - Dexters for Sale

Saturday, June 27th

Mossy Roots' Lucky Clover ADCA #056194

Lovely Polled Red Chondro Heifer

Lucky Clover is about to be a 2 year old red chondro heifer. She comes from nice lineage that has been showing a nice balance of beef and dairy qualities, especially with female offspring.

Her dam is Whittington Lucky and her sire is FFD Murphy.

Whittington Lucky is a great milk cow. She produces more than enough milk to nurse a calf and provide extra for personal use and she is incredibly docile and motherly.

FFD Murphy provides a strong beefy frame and really has helped balance out our herd. He has a very calm temperament that has carried through to his offspring as well.

Lucky Clover is a chondro carrier and she should prove to be a nice little addition to any herd or even be the start of a new herd. She is confirmed to be bred by the vet as well and is estimated to be about 5-6 months along.

Mossy Roots' Pumpkin ADCA #059441

Adorable 6-Month Old Polled Red Chondro Heifer

Pumpkin is a heavy built little tank of a heifer. She is a little over 6 months old and is chondro positive and horned. She has the potential to grow into a very nice cow someday.

Her dam is Whittington Lucky, who is a very good milk producer, has a very calm demeanor, and is very motherly to all the babies in the herd.

Her sire is FFD Murphy, who provides a nice beefy build to his offspring and also has a very calm demeanor.

Pumpkin would make a very nice little heifer for anyone starting out or just wanting to add a nice little addition to their herd.

BitterSweet Acres Gladiator ADCA # 059479

Dehorned • A2/A2 • Chondro & PHA Free • 7 Months Old

Gladiator is a promising young bull calf with excellent early growth and structure. He is A2/A2, chondro-free and PHA-free.

Sire: Glenn Land Mr Brice (ADCA #039666) – noted for incredible depth, length, width, and mature height of 46".

Dam: BitterSweet Asters Red Rose (ADCA #055107) – possesses a terrific udder with great body type and capacity.

At only seven months old, Gladiator is already showing strong potential and should develop into a high-quality herd sire prospect.

AMERICAN DEXTER CATTLE ASSOCIATION MISSION

The mission of the American Dexter Cattle Association is to protect, improve, develop, and promote the interests, standing, and quality of the Dexter breed, and to assist members in adding value to their animals.

ADCA CODE OF ETHICS

As a member of the American Dexter Cattle Association, I agree that I will:

- Not knowingly make any untrue statement in submitting applications for registry and not register animals of questionable parentage.
- Not neglect or mistreat my animal(s), but, on the contrary, at all times safeguard and further its/their well-being.
- Not transfer any animal to a party who I feel will not conscientiously look after its health, safety and well-being or may exploit or degrade or otherwise act to the detriment of the breed of animal.
- Only breed animals that I know to be in good condition and health.
- Represent my animals honestly to prospective buyers and give such advice or assistance to the buyer as may be reasonably requested.
- Keep on the alert for and work diligently to control potentially adverse effects of known genetically inherited conditions by educating prospective buyers regarding the implications associated with the presence of these conditions in a breeding program.
- So act in my breeding practice and in dealings with others as to protect and improve the good standing and reputation of the breed and of the association.
